Community Library label head and all around electronic music taskmaster Paul Dickow has created a very fine record for Kranky. Synthesizing a lot of Dickow's musical history and covering a wide variety of sounds crossing from ambient to house to dub, this has got to be his defining work, and a statement as to how he sees the cross-referencing of sounds and genres progressing. An interesting listen for anyone who likes music that defies genre boundaries.

Style: Downtempo

RIYL: Jan Jelinek, The Orb
